

Where do you stand? If you believe in a woman's right to make her own healthcare decisions, if you believe that government policy should be based on facts and science, if you believe that immigration is what has made America strong and that all immigrants must be treated with dignity, if you believe that everyone has the right to marry whomever they choose, if you believe in criminal justice reform so that all Americans feel like their lives matter, if you believe that no one should be discriminated against based on their religion or the lack thereof, if you believe the top 1% should start paying its fair share of taxes, if you believe that healthcare is a right and not a privilege, if you believe in a living wage, public education and environmental protection, **then you should join Democrats Abroad today!**
