International Tax Filing Day

Congressional CallStorm and Grassroots Campaign Guide
15 June 2018
The 15 June U.S. tax filing deadline for non-resident citizens is upon us - making this the perfect time to raise our voices and remind Congress that we’re NOT HAPPY that the Americans abroad community was completely forgotten in the 2017 tax law. And worse, we were subjected to yet another punitive tax provision because tax writers, once again, didn’t stop to consider the impact of complex new tax provisions on Americans abroad.

Let’s remind Congress that we’re out here, we vote and we need their support for -

• the Residency Based Taxation proposal under development in the Ways & Means Committee;
• an exemption from the “transition taxes” in the 2017 tax law to prevent the destruction of many thousand of businesses owned by Americans living abroad;
• HR 2136, the “Overseas Financial Access Act” – to eliminate the foreign financial accounts of Americans living abroad from reporting under FATCA;
• HR 1205, the “Social Security Fairness Act” - to repeal the Windfall Elimination Provision that prevents Americans abroad with pensions in their countries of residence from claiming the full amount of Social Security payments owed to them;
• a remedy for Accidental Americans who want only to shed unwanted U.S. citizenship without lengthy procedures and undo penalties.

All you need to make your voice heard on 15 June - International Tax Filing day is in this Campaign Guide.
WE NEED YOU TO HELP US FIGHT

1.) CALL YOUR SENATORS AND CALL YOUR MEMBER OF THE HOUSE OF REPRESENTATIVES

Call ON FRIDAY 15 JUNE or in the days prior if necessary.

Advice for finding your members of Congress and scripts for making the calls are in this Guide.

2.) You can also use the web messaging system on the website of your elected representatives to deliver your concerns, but it won’t be as effective as a phone call. NOTHING IS AS EFFECTIVE AS A PHONE CALL. (Except a CallStorm of many, many thousands of phone calls!)

You can use the language for writing letters or postcards in this Guide to draft your message. Send it on 15 June.

3.) Write a letter or Send a postcard.

Your written correspondence may not arrive on Capitol Hill by 15 June but they will help to reinforce the calls being made by others. If you cannot call – or even if you can call - then please write!

The language for writing letters or postcards is in this Guide.

4.) If you can message us to let us know what action you took then that would be great.

Here’s a Google Form to make it super easy for you to respond and for us to use your outreach in this campaign in our next campaign (ie “Committee Chairman X, we know that YY,000 calls and messages about the way the U.S. Tax system hurts Americans abroad were sent to Congress. Please help us fix this.”)

You can cut and paste this link into your web browser: http://bit.ly/CongressOutreach

The tax reforms we are asking for have not changed since the GOP passed their horrific tax law. If you have used our call scripts or messaging language to reach out to your members before it is OK to use the same language/messages again. Or feel free to change them and don’t be afraid to emphasize that you vote from abroad.

FIGHT FOR TAX REFORM – Add your voice to the Congressional CallStorm

Call Your Member of the House of Representatives and tell them:

My name is _________________ and I vote in your district. I live in [name of country] and like other Americans living abroad I am required to file taxes both in the US and in [name of country].

There are 6.5 million Americans like me, living outside the United States, struggling with the U.S. tax code because it discriminates against us in so many ways. Our problems with the U.S. tax system exist because Americans abroad were – and continue to be - forgotten during the tax writing process. As an example, the “transition taxes” in the 2017 Tax Act will force many American business owners abroad to close their companies. Despite the 12 month reprieve from filing, these new taxes will destroy many businesses.

It would take Congress years to address ALL of the tax code provisions that harm Americans abroad. That is why Americans abroad want the U.S. to switch from our current system of citizenship-based taxation to residency-based taxation. If the US had a system of residency-based taxation, like nearly every other nation, then I’d still be required to report my US-based income to the IRS, but not the income I make in and pay tax on to [name of country].

Rep George Holding is working on a Residency Based Taxation proposal. I ask [name of Representative] to work with Congressman Holding’s office on the development of a bill to enact Residency Based Taxation.

I am also asking for [his/her] support for HR 2136 the Overseas Americans Financial Access Act, which would exempt Americans living abroad from disclosures on the financial accounts in their countries of residence – accounts they need to pay bills and save for the future.

Can I send you a briefing note which summarizes the concerns and demands of Americans abroad?

[Write down the name, title and email address of the person you’ll send the list. The link to the list is on page 10].

Thank you very much for your time and for your support!

Re: Seeking your support for tax reform for Americans abroad

I vote in [state] and I live in [name of country]. Like other Americans living abroad, I am required to file taxes both in the US and [name of country]. There are 6.5 million Americans like me, living outside the United States, struggling with the U.S. tax code because it discriminates against us in so many ways. Our problems with the U.S. tax system exist because Americans abroad were – and continue to be - forgotten during the tax writing process. As an example, the “transition taxes” enacted in the 2017 Tax Act will force many American business owners abroad to close their companies. It’s a grave error in policy making and a genuine tragedy for American business owners abroad whose businesses support their families and their futures.

It would take Congress years to address ALL of the tax code provisions that harm Americans abroad. That is why Americans abroad support a switch from the current U.S. system of citizenship-based taxation to residency-based taxation. If the U.S. had a system of residency-based taxation, like nearly every other nation, then I’d still be required to report my US-based income to the IRS, but not the income I make in and pay tax on to [name of country].

Rep George Holding is working on a Residency Based Taxation proposal. Please contact Congressman Holding's office and ask for a briefing on the development of the bill to enact Residency Based Taxation.

I am also asking for your support for HR 2136 the Overseas Americans Financial Access Act, which would exempt Americans living abroad from disclosures on the financial accounts in their countries of residence which they need to pay bills and save for the future. Further, American business owners abroad need relief from the “Transition taxes” in the 2017 Tax Act that will surely force many of them/us to close their/our businesses.

My personal story is as follows…

I value my US citizenship. I vote every year I can. I pay attention to U.S. politics as much if not more than the average citizen. But I don’t believe it’s fair that I am taxed in [country of residence], as well as in the US on income I make abroad.

Thank you

Dear Representative ____________

I vote in your district and I live in [name of country]. There are 6.5 million tax liable Americans like me living outside the United States and the problems with the U.S tax system that uniquely harm us were completely disregarded in the 2017 Tax Cuts and Jobs Act. We are very unhappy.

If the US had a system of residency-based taxation, like nearly every other nation, then I’d still be required to report my US-based income to the IRS, but not the income I make in and pay tax on to [name of country]. I also ask for your support for HR2136 to exempt our financial accounts in our country of residence from FATCA reporting.

We use these accounts to pay our bills and save for the future – not to commit financial crimes.

Democrats Abroad reaffirms its commitment to tax policy that –
- helps reduce inequality and boost opportunity, and
- raises revenue from those with the greatest ability to pay

Democrats Abroad supports tax reforms that –
- clarify and simplify filing,
- make the tax code fairer for all Americans,
- do not add significantly to the federal deficit,
- protect programs essential to national, community or individual well-being, and
- do not create loopholes to be exploited for tax avoidance.

Democrats Abroad has published a “laundry list” of tax code provisions that discriminate against Americans abroad. The list is here: smarturl.it/HowToFix23

We fear Congress is too divided to find remedies for each of the many and myriad tax problems we have identified. But we are determined to keep demanding it of them!

We are committed to Residency-Based Taxation as a remedy, requiring little effort by Congress, that addresses the vast majority of the tax problems faced by Americans abroad. Further, we will continue to promote the elimination of FATCA filing for the accounts of Americans abroad, the repeal of the Windfall Elimination Provision, an exemption for Americans abroad from the transition taxes in the Tax Cuts and Jobs Act and a citizenship remedy for Accidental Americans.
